

# The FACTS about Prop 1 (Ranked Choice Voting)

- Prop 1 supporters are lying! **Prop 1 doesn't restore "open primaries."** It creates a new California-style "jungle primary" system we've NEVER used in Idaho before.
- Prop 1 requires **ranked choice voting**, completely upending Idaho's long-standing tradition of one person, one vote! Instead, voters will have to rank four different candidates in order of preference with a computer-controlled runoff.
- Because of the secret algorithms used by the Dominion voting machines required for ranked choice voting, **Prop 1 makes our elections virtually impossible to audit.**
- Prop 1 is incredibly costly to implement. The complex Dominion voting systems required for ranked choice voting could cost the state up to **\$40 million!**
- **More than 80% of Prop 1 support is from out-of-state PACs** including millions of dollars from Virginia and Colorado. They are trying to turn Idaho blue!
- The real reason **leftists support the Prop 1 ranked choice voting scheme** is because they cannot legally force Republicans to open their primary to Democrat voters.
- Prop 1 is a power play. **It's a lie designed to turn Idaho more liberal**, and the organizers believe you are too stupid to understand what's happening.
